

The American Society of Nephrology announces a service to its non-American colleagues. For an annual fee of US \$40, the ASN will send you all of its mailings and announcements, including a copy of the annual abstract book (first class rates only). Checks for \$40 along with your name and desired mailing address should be sent to the ASN National Office, c/o Charles B. Slack, Inc., 6900 Grove Road, Thorofare, New Jersey 08068 USA.

AWARDS AND GRANTS

Fellows of the ISN

Six individuals have been selected as ISN Fellows. These are:

Chen Hua, M.D.
Department of Pediatrics
First Teaching Hospital
Beijing Medical College
No. 1 Xi An Men Street
Beijing
People's Republic of China

Dr. Zhang Jinhong
c/o Dr. Li Lleishi
Director of Medical Department
305 East Zhongshan Road Hospital
Nanjing, Jiangsu, China

Dr. Kyo Sun Kim
812 Memorial Drive
Apartment 1114A
Cambridge, MA 02139

Dr. Zheng Fa Lei
Renal Division, Department of Medicine
Capital Hospital
China Academy of Medical Sciences
Capital Medical College of China
Beijing, People's Republic of China

Mohammad Qusuf Nasution, M.D.
5J1. Dr. Mansur Campus U.S.U.
P.O. Box 74
Medan, Sumatra
Indonesia

Romualdo Pacheco Prada
Service de Therapeutique Nephrologique
Hopital Necker
161, rue de Sevres
75730 Paris Cedex 15
France

International Fellowship Training Awards

The International Society of Nephrology announces the establishment of an International Fellowship Training Program to provide training in clinical nephrology to physicians from developing countries. It is the objective of this program to

support the growth of nephrology in developing countries through an educational program that admits qualified applicants to clinical training in recognized nephrology programs around the world, and then to return to their home country to practice and/or teach. In unique circumstances, applicants who wish basic research training may be considered if the environment in the home country will permit continued research upon the completion of training.

The guidelines for application are as follows:

(1) Fellowship awards will be made only to physicians from developing countries.

(2) Applicants must provide evidence of acceptance into a recognized and suitable training program before the award can be granted.

(3) The Fellow must return to his or her home country upon completion of approved training.

(4) The Fellow must provide evidence of a guaranteed position in a medical institution upon return to the home country.

(5) Fellows will receive US \$15,000 per year from the Society; they must also provide evidence of additional financial support from the home country and/or the host institution, including the provision of round-trip travel funds for the Fellow and his or her immediate family.

(6) Fellows must be able to read and speak the language of the host country. An interview may be required to assess verbal fluency.

(7) Fellowships will be offered primarily for clinical training of one to two years duration.

(8) Clinical training programs should be practical in their orientation, and applicable to the needs and conditions of the home country. The ability of the host institution to provide such training will be an important factor in the selection process.

(9) Fellows must have received sufficient training in internal medicine or other fields to pass all host country examinations that are necessary to the care of patients. Fellowships may be awarded to senior individuals who seek additional training but, in general, preference will be given to younger physicians who are at the beginning of their permanent careers.

(10) A limited amount of financial support may be available to Fellows for basic start-up needs upon return to the home country.

(11) Specific instructions and the necessary application forms can be obtained by writing directly to Dr. Claude Amiel, Secretary General, International Society of Nephrology, Département de Physiologie, Faculté de Médecine Xavier Bichat, 16 rue de Henri Huchard, 75018 Paris, France.

Travel Awards

Travel Fellowships for the Xth International Congress of Nephrology, London, England, July 26-31, 1987, are available from the International Society of Nephrology. The ISN will provide 120 travel awards of US \$500 each. Applicants must be 40 years of age or under. Preference will be given to a presenter, first author, or co-author of an abstract. Membership in the ISN will be a consideration for receipt of the award.

Application forms for the travel grants will be included in the mailings on behalf of the Congress. Notice of the awards will be made on April 15, 1987, and the funds will be available in London at the time of the Congress.

For submission of manuscripts

New manuscripts and related editorial correspondence for *Kidney International* should be sent to:

Thomas E. Andreoli, M.D.
Editor, *Kidney International*
Department of Internal Medicine
University of Texas Medical School
P.O. Box 20708, MSMB 1.150
Houston, Texas 77225 USA

The telephone number for the Editorial Office is (713) 792-5993.

For submission of announcements

Kidney International invites brief announcements of meetings, courses, workshops, and so forth, pertaining to nephrology. Please send the announcement, complete with dates, location of meeting, and correspondent's name, address, and phone number at least 6 months in advance of the time of the event. Announcements are published from the time they arrive in the Editorial Office until the month preceding the date of the event. Announcements should be sent to the above-stated address for the Editorial Office in Houston, Texas, USA.

Erratum

The paper entitled, "Continuous Ambulatory peritoneal dialysis in the United States: A three-year study," by Karl D.

Fig. 2. Probabilities of dying while on CAPD or within 2 weeks of transfer (—); a transfer to hemodialysis, IPD, or medical management with at least a two week patient survival and no intention to return to CAPD or any such transfer considered "temporary" but exceeding 4 weeks (---); and dying or transferring (.....). For all calculations, departures from CAPD for kidney transplantation or recovery of renal function were withdrawn from observation.

Nolph, et al, which appeared in *Kidney International* 28:198–205, 1985, contained an error on page 201 in the Figure 2 legend. The correct information is presented herein.
